

Suvarna Chauhan

UI/UX Designer, Researcher

I design intuitive interfaces grounded in research, creating clear, impactful solutions that enhance user experiences. With strong tech knowledge and attention to detail, I create accessible, high-performing designs that enhance human-computer interaction.

EXPERIENCE

UI/UX Designer Trainee - Copan Consultancy Services

Panchkula , June 2025 - July 2025

- Designed and developed user interfaces for various clients such as Coca and Western.
- Digitally improved task efficiency by reducing average user clicks and screens by 25-30%.
- Implemented and scaled a design system, creating reusable components that improved design-to-development handoff speed.

UI/UX Design Intern - Mentorsity

Remote, Jan 2025 - April 2025

- Designed and developed pitch decks to effectively communicate business goals, user insights, and design solutions to clients and stakeholders.
- Overall user experience evaluation of the existing website to identify usability issues and improve.
- Created responsive UI designs for the company's website, ensuring consistency with brand identity and enhanced user interaction.

UI/UX Design Intern - Leadsquared

Bangalore, May 2022 - May 2023

- Contributed significantly to the design system - created 200+ icons that were used across 3.
- Developed animations for the app using Rive.
- Successfully implemented the design system, resulting in a more efficient and user-friendly mobile app.
- Collaborated with design and engineering teams to maintain consistent and cohesive user interface.
- Used strong analytical thinking and problem solving skills to develop solutions to challenging situations.
