

BHEL-PURI PACKET REDESIGN .

contents of a Bhelpuri packet: bhel stuff(puffed rice, sev) and chutney sachet

material used in packaging: multi-layered plastic

problem: Dependency on utensils(bowls , spoons) .Can't just open, mix and eat

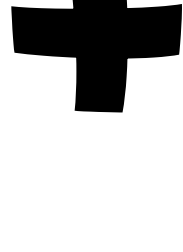

aim: innovative, eco friendly packaging in reasonable price

inspiration: noodle box (not inspired by chinese bhel at all XD) and McDonald's piri piri shake bag (new way to interact with bhel puri)

Interaction

Innovation

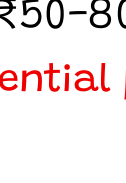

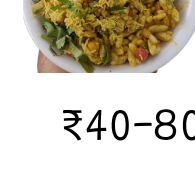

TAM (Total Addressable Market): ~500 crore (CHAT MARKET)

Target Audience: age group 13-35 years

Targeted Cities: Metro cities and tier -2 cities

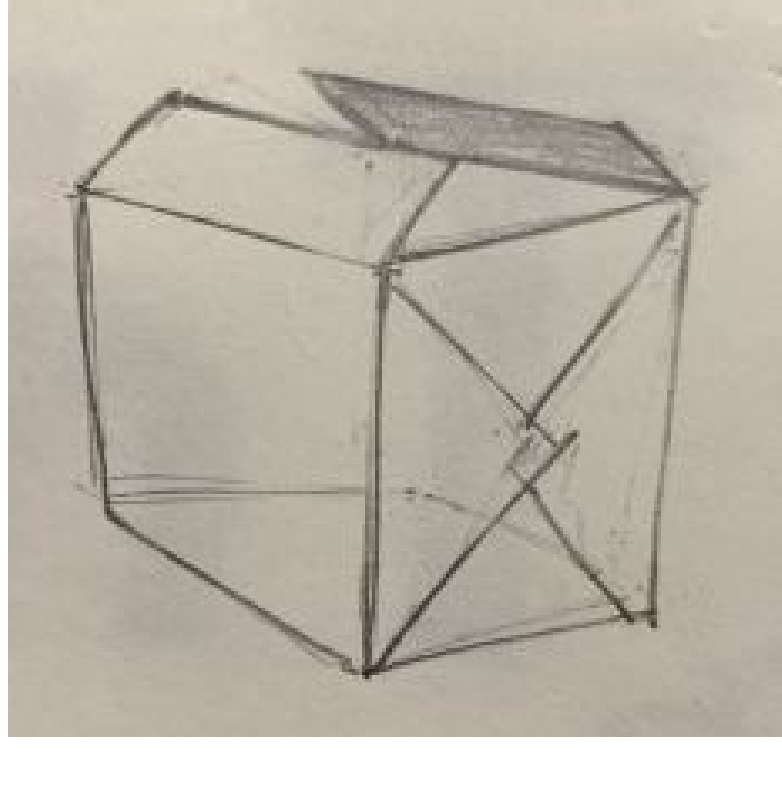

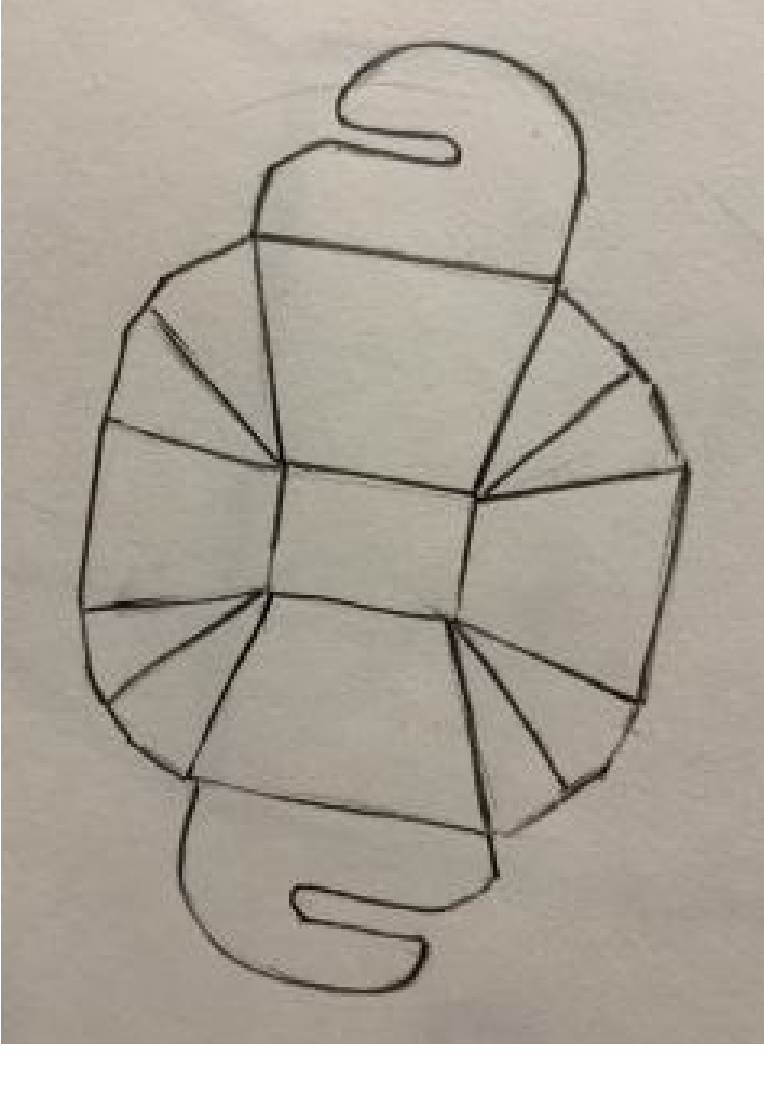

Price Points:

	cup packet	Plastic Packet	Street
Maggi	 ₹50	 ₹10	 ₹40-100
Bhel Puri	 ₹50-80 *potential price	 ₹70-100	 ₹40-80

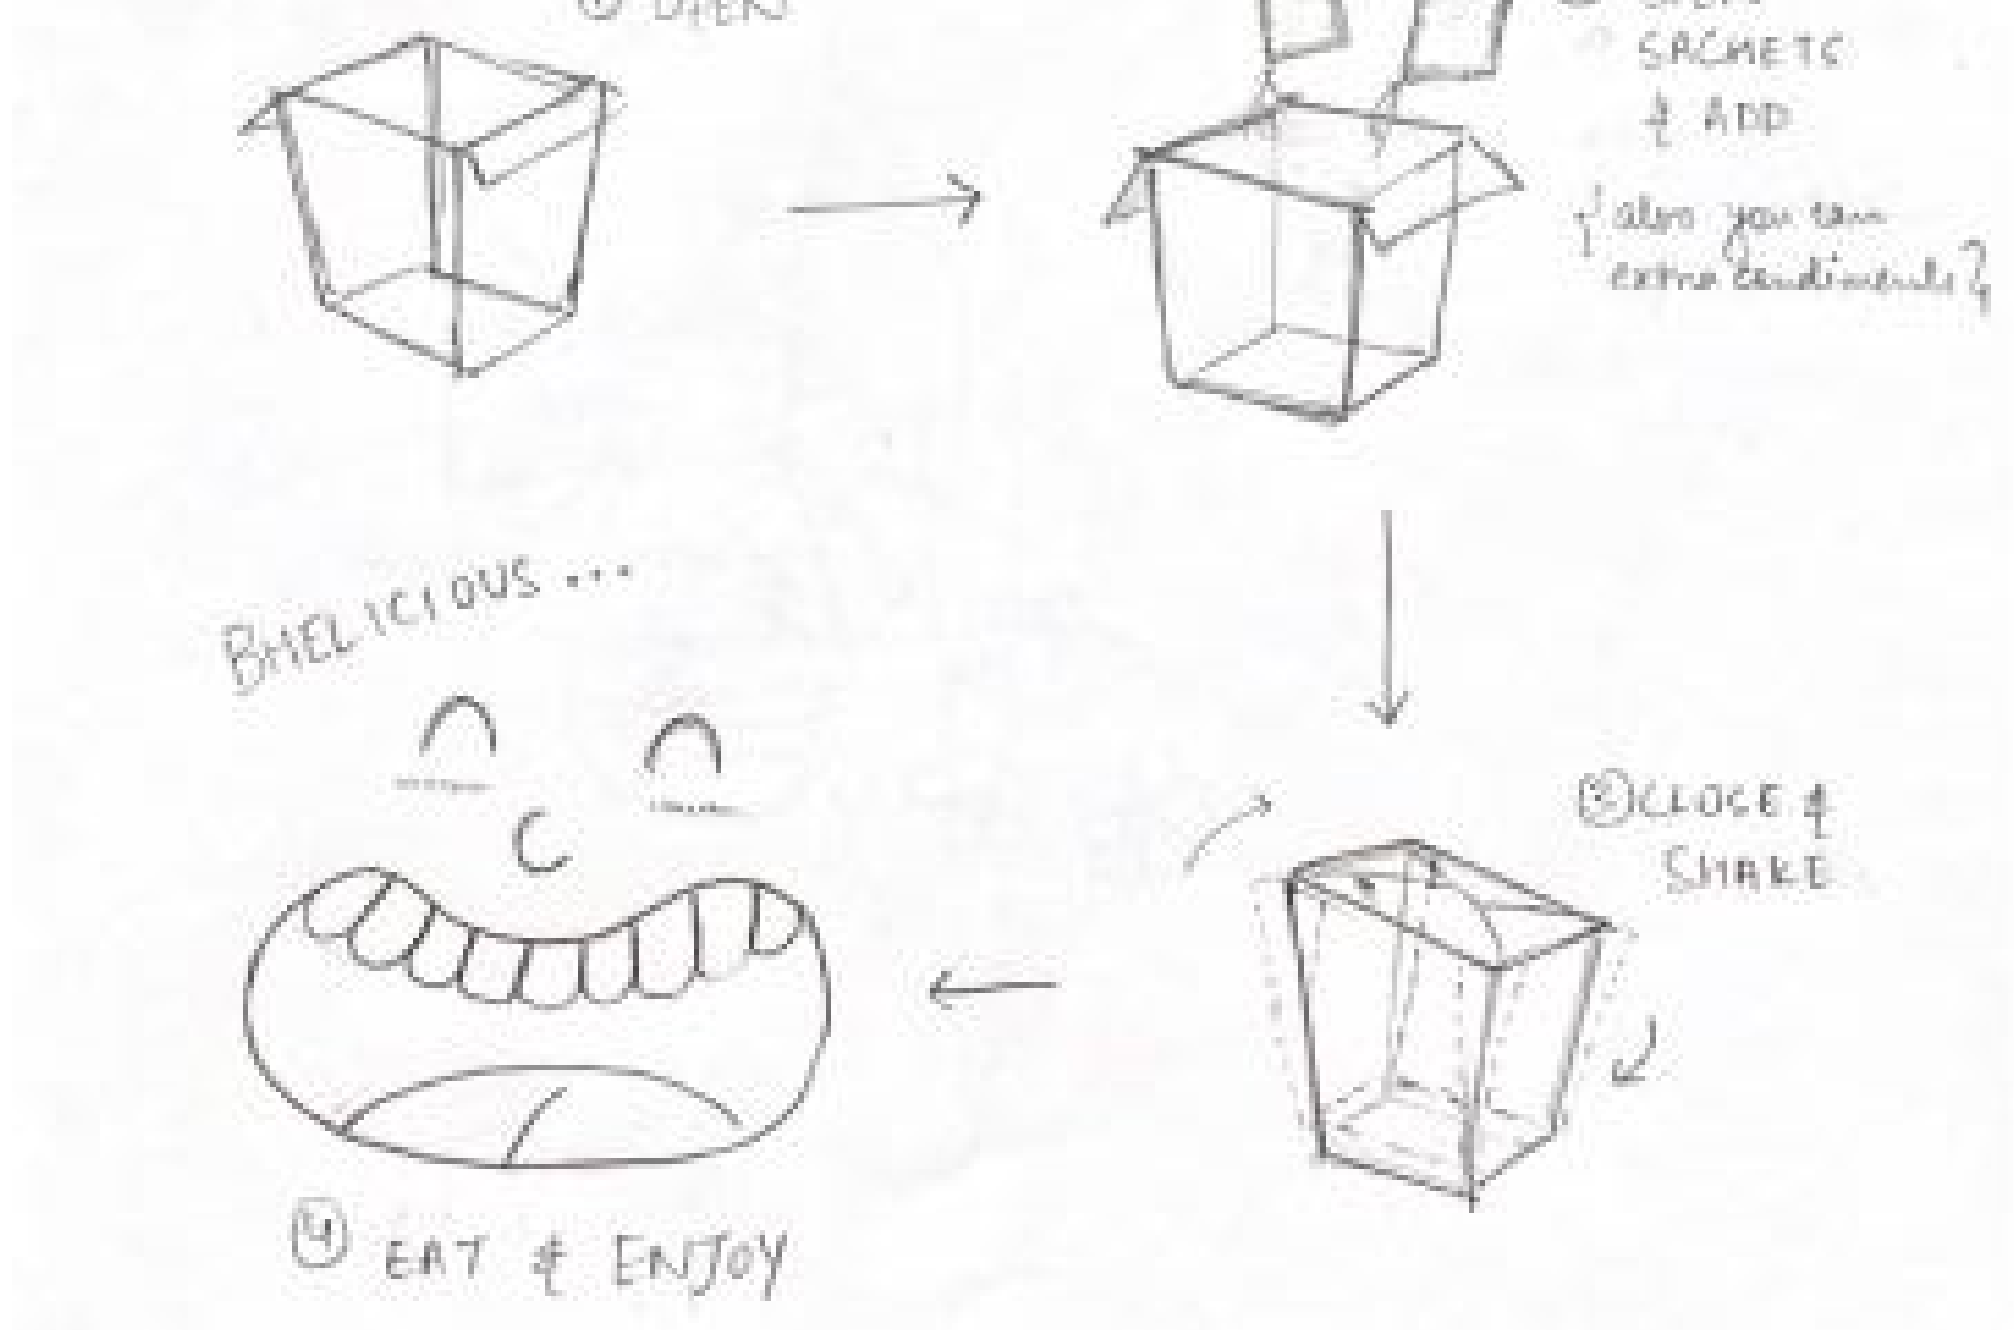

Materials that can be used are :
Paperboard or cardboard
(biodegradable & compostible)

*they will reduce the cost of making as well

formation :

Sequential Drawing for instructions

colour palette: Red and yellow – induces hunger and colour of spices used in making of bhel puri

Font Used: Grandstander

Free stickers !

to attract first time customers: funky pun stickers visible as attached externally so one is tempted to buy

WHAT A PUNTASTIC IDEA ... 🤪

Final Mock Up

Future scope .

Every state has it's own speciality and cuisines that implies for street food as well , i can't go to kolkata for Jhal muri, Karnataka for Churmuri or Mumbai for Sev puri . So these can also be packaged which will increase it's shelf life and hence reach the masses of different states.
